

## Pricing Information

Launch On Demand is the only privately-owned solution for ground-to-space corridor navigation.

Space launch services include technical capabilities and consulting to support clients in commercial, civil, and national defense space launch and recovery and hypersonic planning and operations.

### **Day of launch services for space launch and hypersonics**

Contact us to discuss requirements and pricing for our Space Launch Services Platform (SLSP) which addresses these functions: Ground and flight safety analysis, sea and air surveillance, weather forecasting and observation (including lightning launch commit criteria), telemetry and tracking, timing, optics, radio frequency management, GPS non-interference characterization, launch collision avoidance, scheduling, and communications

### **Spaceport-based operations**

Please contact us to discuss pricing for ground operations and launch support services for your current or planned spaceport.

### **Advisory services**

- FAA launch licensing assistance. Launch On Demand can help you navigate regulatory complexities and guide development of documentation to satisfy FAA launch license requirements. Contact us to discuss your requirement and learn about pricing.
- Scientific research. Launch On Demand can create a team with deep expertise to address your scientific research needs. Contact us for pricing.

### **Other services**

Senior cloud architect. \$140 per hour

Cloud developer. \$120 per hour

Austere communications architect (networking and resiliency). \$120 per hour

Security engineer. \$90 per hour
